STORViX™

Data Storage Solution for
FINANCIAL INSTITUTIONS

Secure & scalable storage for compliant financial data access

Businesses in the financial sector operates under specific regulatory frameworks to ensure data safety, consumer protection, and institutional integrity. Our AI-driven solution—AiRE IntelligentFiler—offers a comprehensive solution tailored to meet the unique challenges faced by financial companies in data management, storage, compliance, scalability, data availability, and data resiliency.

How STORViX benefits financial institutions

Cost Efficiency

Allocate resources effectively and optimize your IT budgets
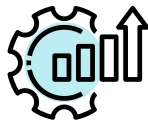

- Intelligent data compression and deduplication algorithms
- Dynamic pricing model
- Hardware and software upgradability

Robust Data Security

Incorporate best security practices directly into the data storage system

- YubiKey support
- Fine-grained access controls
- Built-in offsite replication
- Immutable snapshots

Enhanced Productivity

Simplify data management processes and saving valuable time for IT teams

- Streamlined operations
- Centralized management
- Unified user experience

Compliance Assurance

Ensures compliance with data protection regulations such as GDPR

- Deployment options available: on-prem or in the cloud provided by our selected professional partners
- Secured financial record-keeping
- Cloud-integrated systems available for seamless data accessibility during audits

STORViX™

Overcome financial data challenges with our unique solution

Your Goals	Your Needs	We offer
Data Safety & Security	• Safeguard sensitive information from unauthorized access • Minimize the risk of data loss, ensure continuity	• Proactive data protection algorithms • Fine-grained access controls • Immutable snapshots
Regulatory Compliance	• Ensure data integrity, prevent unauthorized alterations • Transparency and accountability	• Multi-level encryption policies per dataset • YubiKey support • Anomaly behavior detection
Scalability & Flexibility	• Adapt to the growing data volumes without compromising performance or efficiency	• Seamless expansion of storage capacity with modular architecture • Upgradable without interrupting an operation
Data Availability & Accessibility	• Ensure uninterrupted access to financial data • Recover data in an instant, minimize the risk of downtime	• Secured and reliable off-site replication service available as a backup and disaster recovery plan

Our partners

Unlock the potential of STORViX's partner ecosystem, featuring leading distributors, system integrators, and service providers. Through our strong collaboration with emt Distribution's dedicated sales and technical teams, we proudly deliver our comprehensive portfolio to customers across the META region. Our unwavering commitment to service excellence ensures a seamless customer journey from the very beginning.

Experience the freedom of choice with STORViX's flexible deployment options, whether it's on-premises, in the cloud, or a dynamic hybrid solution, thanks to our strategic partnership with established public cloud providers such as AWS and OCI.
